Location:	Judicial Information Systems Annapolis, Maryland	Grade/Entry Salary:	T15 -\$69,974 - \$83,879
Financial Disclosure:	Yes (Depending on Qualifications)		

Regular State employees subject to promotion/demotion policy

Essential Functions: The Manager of Security Engineering and Operations is a Maryland Judiciary-wide, highly technical managerial position. **Operation Security Management:** Administer network and computing devices/ systems/services that enforce security policies and audit controls across the multi-platform Judicial Information Systems (JIS) environment. Conduct periodic vulnerability assessments and review the findings to gauge the overall risks, severity and appropriate corrective measures. Collaborate with the security team, develop risk mitigation and remediation plans in support of applicable legislative, state, and federal regulatory requirements. Monitor, investigate, and document operational and key information about critical security systems. Ensure timely documentation is developed for all production configurations. Participate in security compliance efforts and assist in responses to audits. **Security Engineering:** Architect, design, implement and evaluate JIS software, hardware and services for Judiciary-wide use. Perform support for a wide range of security technologies. Participate in JIS acquisition process and vendor risk assessment due diligence efforts. Evaluate and recommend new and emerging security products and technologies. Includes functional management responsibilities. Leads management team for all security-related incidents. Maintains knowledge of current and emerging Information Security vulnerabilities.

Education: Bachelor's Degree from an accredited college or university in Computer Science, Information Security, Information Assurance, Cyber Security, Information Technology, or a related discipline.

Experience: Five years related experience in the area of security administration, security compliance and risk management. Previous two years of lead and/or supervisory experience.

Preferred: Recognized Security Certifications to include ISACA, GIAC, ICS, and but not limited to CISM, CISA, GISP, GSNA, or CISSP.

NOTE: Additional information security experience and certifications will be evaluated for substitution of any or all of the education requirement.

Skills/Abilities: Knowledge of information security, risk management, computer forensics, host intrusion detection, network intrusion detection, vulnerability scanning, application-level vulnerability, and authentication & security protocols. Ability to understand the Judiciary's technical and business environment. Knowledge of national security standards, applicable laws and regulations as they relate to security, auditing, risk management, vulnerability assessments, contractor/vendor negotiations & management and security incident management. Ability to be proactive, and utilize analytical, problem solving and decision making skills. Ability to manage multiple projects. Ability to communicate with all levels of IT staff and management. Ability to train, coach, and mentor staff. Ability to promote continuous improvement of Judiciary's state of security.

Please submit a Maryland Judiciary employment application (unsigned applications will not be accepted) or resume and cover letter stating position title and PIN. The Human Resources Department does not accept faxes and will not be responsible for applications or resumes sent to any other address.
